## DIGI-USB 6000-USB FINGERPRINT READER

### Product Introduction:

The DIGI Fingerprint Reader is a USB fingerprint reader designed for use with DIGI's enterprise software applications and developer tools. The user simply places their fingerprint on the glowing reader window, and the reader quickly and automatically scans the fingerprint. On-board electronics calibrate the reader and encrypt the scanned data before sending it over the USB interface. DIGI products utilize optical fingerprint scanning technology for superior quality and product reliability. The DIGI fingerprint reader recognition engine have an unmatched ability to authenticate even the most difficult.

### Features:

- Small form factor
- Excellent scan quality
- Encrypted fingerprint data
- Latent print rejection
- Counterfeit finger rejection
- Rotation invariant
- Rugged
- Works well with dry, moist, or rough fingerprints
- Compatible with DIGI Biometric hardware and software products
- Compatible with Windows® XP, 2000, Me, 98, NT®4.0 and Windows Server 2000, 2003, Vista

### Applications:

- Desktop PC security
- User enrollment
- Mobile PCs
- Custom applications
- Home and office use
